DETAILED ACTION

Response to Amendment

The Amendment, filed on October 21, 2003, has been entered and acknowledged by the Examiner.

Cancellation of claims 18, 20 and 31 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Robinson on November 14, 2003.

The application has been amended as follows:

In the Abstract

Pursuant to MPEP § 608.01(b), please replace the abstract in its entirety with the following text:

A method of fabricating a light-emitting device comprising a step of inspecting an element substrate by using an inspection device to detect defects during a process for finishing the light-emitting device. The element substrate is inspected by emitting electromagnetic waves from a source of electromagnetic waves, ionizing a gas between the element substrate and an opposing detector substrate, measuring a current between the element substrate and the opposing detector substrate, and inspecting the current-flowing state of a pixel electrode of the element substrate.

Allowable Subject Matter

Claims 16, 17, 19, 21-30 and 32-38 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claims 16 and 28, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claims 16 and 28, and specifically comprising the limitation of the element substrate is inspected by emitting electromagnetic waves from a source of electromagnetic waves, ionizing a gas between the element substrate and an opposing detector substrate, measuring a current between the element substrate and the opposing detector substrate, and inspecting the current-flowing state of a pixel electrode of the element substrate.

Regarding claims 17, 19 and 21-27, claims 17, 19 and 21-27 are allowable for the reasons given in claim 16 because of their dependency status from claim 16.

Regarding claims 29-30 and 32-38, claims 29-30 and 32-38 are allowable for the reasons given in claim 28 because of their dependency status from claim 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
